

## Incident Status Summary (ICS-209)

1: Date <b>06/25/2011</b>	2: Time <b>1945</b>	3: Initial   Update   Final   <b>XX</b>	4: Incident Number <b>NC-NCS-11-071-048</b>	5: Incident Name <b>Juniper Road</b>		
6: Incident Kind <b>Wildfire (Full Suppression/Perimeter Control)</b>		7: Start Date Time <b>06/19/2011 1533</b>	8: Cause <b>Lightning</b>	9: Incident Commander <b>Reid Hildreth</b>	10: Incident Command Organization <b>Type 2 Team</b>	11: State-Unit <b>NC-NCS</b>
12: County <b>Pender</b>	13: Latitude and Longitude Lat: <b>34° 32' 40"</b> Long: <b>77° 40' 23"</b> Ownership: <b>NC-NCS</b>		14: Short Location Description (in reference to nearest town): <b>18 miles northeast of Wilmington, NC</b>			
15: Size/Area Involved <b>21,336 ACRES</b>	16: % Contained or MMA <b>20 Percent</b>	17: Expected Containment Date: <b>08/01/2011</b>	18: Line to Build	19: Estimated Costs to Date <b>\$588,327</b>	20: Declared Controlled Date: Time:	
21: Injuries this Reporting Period: <b>0</b>	22: Injuries to Date: <b>0</b>	23: Fatalities <b>0</b>	24: Structure Information			
			Type of Structure	# Threatened	# Damaged	# Destroyed
25: Threat to Human Life/Safety: Evacuation(s) in progress ---- No evacuation(s) imminent -- Potential future threat ----- <b>XX</b> No likely threat -----			Residence	<b>2,100</b>		
			Commercial Property			
			Outbuilding/Other			
26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames: 12 hours: <b>North and northeast. Some movement to the south is possible on uncontained perimeter</b> 24 hours: <b>Same</b> 48 hours: <b>Same</b> 72 hours:						
27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames: 12 hours: <b>Holly Shelter Gameland wildlife habitat, residences along Highway 50 in Onslow County, timber and T&amp;E plant species and Camp Lejeune training areas and ranges.</b> 24 hours: <b>Same</b> 48 hours: <b>Same</b> 72 hours: <b>Same</b>						
28: Critical Resource Needs (amount, type, kind and number of operational periods ()) in priority order in 12, 24, 48, and 72 hour time frames): 12 hours: 24 hours: 48 hours: 72 hours:						
29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan. <b>Fuel has an extremely high organic matter component which limits moisture absorption and hinders the ability to put out the fire in this fuel type. Few natural / man-made breaks to use as control lines. Heavy smoke has hindered visibility on recon flights and has mixed with other fires, including Pains Bay and Simmons Road, impairing the air quality of areas from Raleigh to the coast.</b>						
30: Observed Weather for Current Operational Period Peak Gusts (mph): <b>13g16</b> Max.			31: Fuels/Materials Involved: <b>4 Chaparral (6 Feet) Pocosin fuels</b>			

Temperature: **93**  
 Wind Direction: **SW** Min.  
 Relative Humidity: **46**

32: Today's observed fire behavior (leave blank for non-fire events):  
**Smoldering of organic soils within the fire interior. Slow moving surface fire. Minimal torching.**

33: Significant events today (closures, evacuations, significant progress made, etc.):  
**Prep for burn in Division N north from Division F/N break to fire perimeter. Completed burnout along southwest flank. Attempting direct attack along Division M.**

34: Forecasted Weather for next Operational Period Wind Speed (mph): <b>5-7</b> Temperature: <b>92</b> Wind Direction: <b>W-SW</b> Relative Humidity: <b>40</b>	35: Estimated Control Date and Time:	36: Projected Final Size: <b>unk</b>	37: Estimated Final Cost:
---	--------------------------------------	---	---------------------------

38: Actions planned for next operational period:  
**Continue to install pre-suppression lines along all divisions in anticipation of on-going burnout operations.**

39: For fire incidents, describe resistance to control in terms of:

1. Growth Potential - **High**

2. Difficulty of Terrain - **High**

40: Given the current constraints, when will the chosen management strategy succeed?  
**Unknown.**

41: Projected demobilization start date:

42: Remarks:  
**Heavy smoke will impact the coastline and traffic corridors running northeast through North Carolina. Significant rain is needed to saturate the organic soils and extinguish the ground fire.**

**43: Committed Resources (Supplemental Committed Resources follow the first block)**

Agency	CRW1		CRW2		HEL1	HEL2	HEL3	ENGS		DOZR		WTDR	OVHD	Camp Crews	Total Personnel
